False Hearted Lyrics

I peel my nails back til they're bleeding
Your method acting is quite deceiving
I rip my hair out to feel something
My friend you are nothing
You'd empty me and I would let you
You take me down and I'll take you too
You waste of space
I gave you all I had to give
If I meant nothing to you why did you insist
It's far too late to change your mind
What's won is won
Open your eyes and take a look at what
you've done
And I aided your selfish apathy
Recalling such consumes me
Worthless daughter
Scheming mother
My friend I hope you suffer
You'd empty me and I would let you
You take me down and I'll take you too
You waste of space
I gave you all I had to give
If I meant nothing to you why did you insist
It's far too late to change your mind
What's won is won
Open your eyes and take a look at what
you've done
You waste of space
I gave you all I had to give
If I meant nothing to you why did you insist
It's far too late to change your mind
What's won is won
Pry your eyes open
Take a look at what you've done

Claustrophobia Lyrics

You can't become a new person every day
I can't accept it
I'm so sick of being me
Out of my control
Every little thing
Tantalizing
The relentless strife has brought me down
No longer can I synthesize it into sound
I am imprisoned in this vessel
I can't flee
So help me
Sever my arms and give me a new name
Think a renewal might just numb the pain
So very long since I've felt a sense of peace
And so I plead
The relentless strife has brought me down
No longer can I synthesize it into sound
I am imprisoned in this vessel
I can't flee
So help me
The relentless strife has brought me down
No longer can I synthesize it into sound
I am imprisoned in this vessel
I can't flee
So help me

Hostage Lyrics

Strike me down once again
Cause what am I if not used
I'm just a mannequin
Manipulated and bruised
I'm hypnotized and dazed
You massacre me in every way
Is it karma or is it fate
The realization hits
I don't think I can live through this
It's better if I don't stay
So tell me one more time
Is inflicting pain how you get by
And will the cycle ever end
Or will you kill me once again
I'm hypnotized and dazed
You massacre me in every way
Is it karma or is it fate
The realization hits
I don't think I can live through this
It's better if I don't stay

Devoid Lyrics

Empty thoughts
Empty mind
This vessel's soul must have died
To watch a friend get eaten alive
Your name the final thing they cried
Commander lend us a hand
What's next to do
Give the command
They swat us down like little flies
The only way out is inside
If I can't kill them all
And I begin to fall
If this is all in vain
These words are all that remain
If I can't kill them all
And I begin to fall
If this is all in vain
These words are all that remain
